Leading global provider of innovative cost reduction and security solutions to the cash handling industry.

The Company

THE QUEEN'S AWARDS
FOR ENTERPRISE

The Company

- Independent British company
- Over 100 employees
- Established 1985
- Over 100,000 systems deployed worldwide.
- Fully accredited

- Intelligent System for Banknote Neutralization uses an indelible ink to permanently stain the banknotes.
- A safe and proven system that prevents criminals profiting from crime.
- *“No reward = no purpose in the robbery!”*
- Stained notes can be exchanged by the bank or Cash transport company with the Central Bank.

Ink Dye Technology as a Deterrent To Bank Robberies

Do Armoured trucks and guns still work?

iBox loaded in armoured truck

Pavement protection.

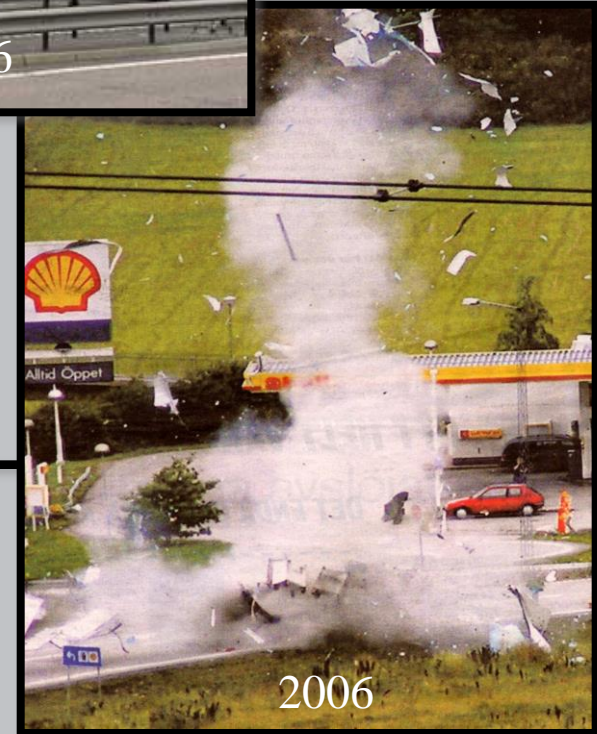

1x box & 1x chute per vehicle

Over 90% vehicle attacks are organised internally

Europe, Africa & Latin America

Solution: remove access to the money

- Intelligent Rack & iBox acts as a safe
- Can be operated as a 'one-person vehicle'.
- No unauthorised access possible.

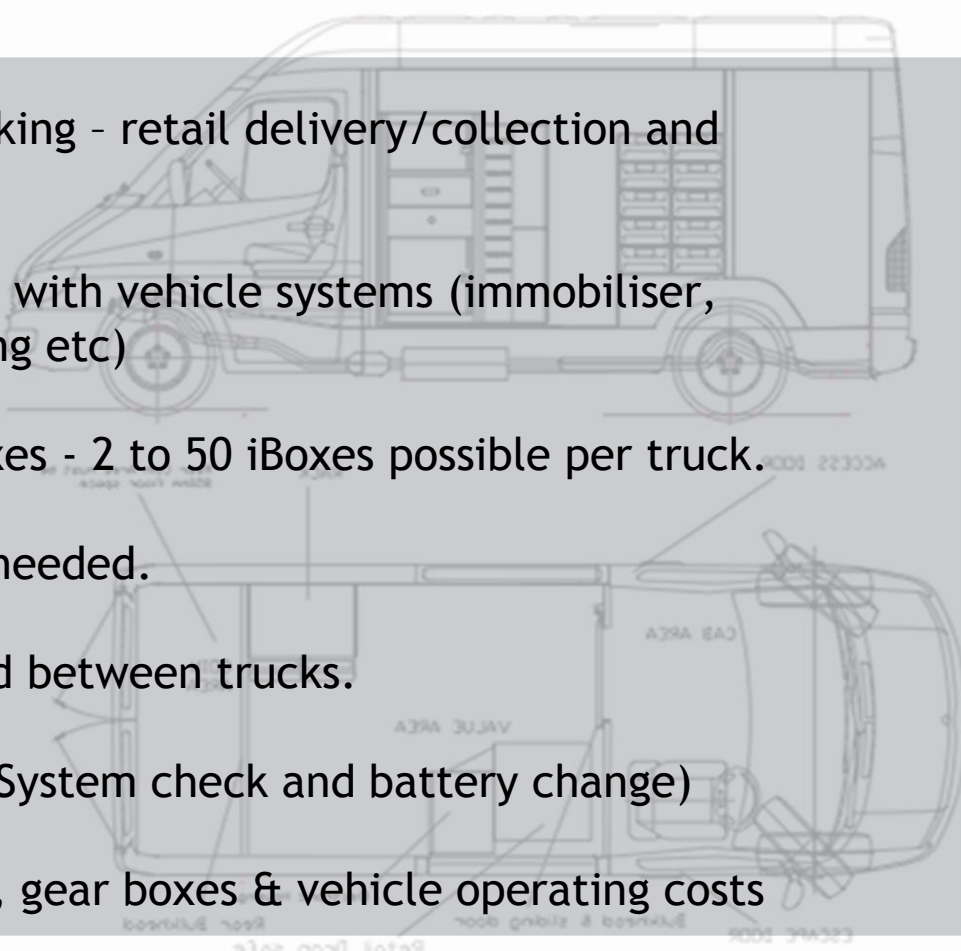

End to End Security

iBox[®]

- Programmable racking - retail delivery/collection and bulk transport.
- Rack can interface with vehicle systems (immobiliser, GPS, vehicle locking etc)
- Any number of boxes - 2 to 50 iBoxes possible per truck.
- No vehicle power needed.
- Rack can be moved between trucks.
- Low annual cost. (System check and battery change)
- Save fuel, engines, gear boxes & vehicle operating costs

Benefits

- SAFE – iBox removes the need for conflict during a robbery. This reduces risk to the guard and general public.
- SECURE – Against both internal and external risks. Access to boxes is restricted. All products carry onboard black box.
- SIMPLE TO USE – only two tags needed to operate the box. LCD display instructions help the user.
- RELIABLE – over 36,000 iBox Zero's in use in 34 countries today.
